Welcome

Welcome to WebAdmin OMJ-WebAdmin

WebAdmin is a collection of all Monster's administration tools. Your access level matches your role in the organization. Should you need a change of access, please contact your manager to open a ClearQuest ticket with project = Product Helpdesk.

WebAdmin contains confidential, proprietary and trade secret information belonging to Monster, Inc., its affiliates, as well as the confidential personal identifying information of Monster users (collectively, ""Monster""). By choosing to access WebAdmin, you agree that at all times:
(1) you will use WebAdmin and the information contained therein solely for the purpose of performing your duties for Monster;
(2) you will preserve the confidentiality of the information contained in WebAdmin;
(3) you will not disclose all or any portion of the information contained in WebAdmin, or provide a copy thereof in any form (either printed or electronic), to anyone outside of Monster; and
(4) the provisions of this paragraph are in addition to, and not in lieu of, any confidentiality or similar obligations which you may have now or in the future, whether by agreement or otherwise.

Attention all Users of User Administration (Recruiter), User Administration (JobSeeker), and Wizard Tool!
This alert is to inform you of a very important update to the three tools listed. These tools will be retired on August 18th and replaced with upgraded tools of the same functionality. The tool set is being upgraded from .asp technology to .NET. In addition to the upgrade there are several field name changes to help reconcile with other supporting systems and some minor feature enhancements. They can be found in the 2012.08.0 Release Notes.

In support of the upgrade, over the next few weeks, members of the project team will be reaching out to managers and individuals to allow for parallel access to both tool sets. This will assist you in acclimating to the upgraded tools. As of the August 18th release the old version of the tools will no longer be available and all users will have access to the upgraded tool set. Testing has been ongoing, and any issues that you may come across prior to the August release have been addressed in the August release.

Notifications for Sarah Wilson

Expiration Alerts
Access to the following tools is temporary and will expire at the date shown below. Should you need to retain access to a tool past the set expiration, please contact your manager to request additional access.
