BASIC 3-Day Authorized Training

Trainer: Susan Lowery O'Connell, Ph.D

The award-winning parent training, teacher training, and child social skills training approaches developed by Carolyn Webster-Stratton, have been selected by the U.S. Office of Juvenile Justice and Delinquency Prevention as an "exemplary" best practice program, and as a "Blueprints" program. The Incredible Years was selected as a "Model" program by the Center for Substance Abuse Prevention (CSAP). As such, the series has been subject to three quality evaluations by independent groups, evidenced excellent effectiveness, and attained high overall ratings. The American Psychological Division 12 Task force has recommended the Incredible Years as a well-established treatment for children with conduct problems.

The Incredible Years Parents, Teachers, and Children Training Series has two long-range goals. The first goal is to develop comprehensive treatment programs for young children with early onset conduct problems. The second goal is the development of cost-effective, community-based, universal prevention programs that all families and teachers of young children can use to promote social competence and to prevent children from developing conduct problems. For more information about this program go to: http://www.incredibleyears.com

This 3-day workshop will cover in depth the BASIC Parenting (Preschool) and Toddler programs, designed to promote positive parenting strategies and to assist parents in managing children's behavior problems. Content of this training program includes: play, helping children learn, positive reinforcement, limit setting, nonphysical discipline alternatives, problem solving, effective communication skills and supporting children's education. Group therapy process issues such as empowering parents, collaborating, dealing with resistance, confronting and teaching, supporting and advocating for parents will be discussed.

This intervention program may be used by professionals (such as therapists and parent educators from psychology, social work, education, nursing and psychiatry) who are working with families of young children with conduct problems (ages 1-10 years), or with parents needing some guidance in strengthening parenting skills, including single parents, families involved with CPS, and teenage parents. The workshop will also teach how to use the Incredible Years BASIC Parent Program as a prevention program in elementary schools and early childcare settings.

The training is limited to 25-27 participants.
Openings will be filled on a first come basis.

WHEN

March 14, 2011 - March 16, 2011
9:00 a.m to 5:15 p.m.

WHO

OCTF IY Grantees who need IY Basic Parent Training.
