Three-Star Quality Rating System

Among the Best in Ohio

Step Up To Quality was created to help parents like you identify early care and education programs that go beyond the minimum standards of licensing. Star Rated programs voluntarily meet higher levels of care and early learning.

What Kinds of Programs Are Star Rated?

Whatever type of program you prefer, there's one that's Star Rated to meet your needs – from faith-based, to Head Start, Montessori, Reggio, full-day, part-day, part year and even parent co-ops.

The More Stars the Better

Step Up To Quality programs earn one, two or three stars. Each star signals a higher standard of staff qualifications and planned early learning activities. All Star Rated programs are good for children.

Learning Places

I am engaged in activities supporting my development.

Nurturing Places

I feel welcome and everyone is responsive to my needs.

Healthy Places

I am comfortable, everyone looks out for my well-being.

Safe Places

I feel protected, everyone keeps me out of harm's way.

Step Up To Quality Teachers Are Highly Trained

Just like other professions, teachers in Star Rated programs are required to keep up to date on the latest knowledge, research and techniques to support your child's development and learning. These dedicated teachers:

- Complete 20 hours of specialized training every two years.
- Are prepared to meet your child's unique needs
- Plan learning activities using Ohio's Infant & Toddler Guidelines and Early Learning Content Standards

How Does Your Child Spend the Day?

There are 1,892 days from birth until school starts. Step Up To Quality programs know every day matters.

Step Up Measures Up

Parents are choosing Step Up To Quality because they want the best for their children. Research from The Ohio State University confirms that as programs add stars, the benefits to children add up. They display more confidence, a curiosity about the world around them and are ready to learn. These are skills important for success in school and in life.
