

## Ohio County QuickView Reports

The Ohio County QuickView Reports present timely summaries of relevant agency program performance by county. For many program areas, both current and prior performance data is shown. Demographic information for each county also is provided. The reports are updated quarterly with the most recent validated data available.

Some county agencies have merged their operations. For example, agencies in Hocking, Ross and Vinton counties have combined to form the South Central Ohio (SCO) JFS. Agencies in Defiance and Paulding counties merged to become the Defiance/Paulding Consolidated Job and Family Services. The QuickView reports include data for all counties served by the merged agencies.

On January 1, 2013 the new South Central Ohio Job and Family Services (SCOJFS) agency began operations. The multi-county agency resulted from the merger of Hocking, Ross, and Vinton counties. Staff and commissioners from all three counties worked together for two and a half years to make the merger possible. The new shared service agency provides all the same services as any other county agency, while maximizing resources to more efficiently use Ohio's taxpayers dollars.

For some data categories, datasets for each county in the SCO agency will be displayed. Their combined totals, where mathematically possible, are shown in the 'SCO' column of the data category.
