

Pause for a child

Title:

The Magic Café

Abstract:

The Magic Café will promote child abuse and neglect prevention by providing the participants with knowledge, tools and skills to enhance their ability to effectively discipline children. This event allows attendees to come together in small groups, review the 123 Magic process and participate in discussions on how they are using the tool as an alternative in disciplining their children. This interactive format also provides participants with the benefit of shared experiences and the opportunity to compare alternative disciplinary practices. Parents, childcare providers and other professionals who work with children will be the primary audience.
