

# Pause for a child

---

**Title:**

Child Abuse and Neglect Prevention Training

**Abstract:**

The Child Abuse and Neglect Prevention Training is designed to teach skills that cover the following topics: definitions/distinctions of abuse/neglect; behavioral indicators of abused/neglected children; definitions and phases of sexual abuse; physical abuse and what to report or document; and the effects of trauma on children. The training will involve group exercises including situational role play and some written exercise. The target population for the training is Vinton County parents, child care providers and professionals.

In addition, Vinton County FCFC will be partnering with its local library system to provide books, pamphlets and informational brochures to Vinton County families through the creation of a lending library. The information available through the lending library will focus on the topics of parenting skills, child abuse, child neglect, trauma and positive discipline. The target population for the library is Vinton County families.
