

Known MITS Issues & Defects (Updated 8/1/2011)

<u>Posting Date</u>	<u>Defect #</u>	<u>Issue/Defect</u>	<u>Resolution/Work Around</u>
8/1/2011	10424	(Loop- 2350) The sum of CLP04 (claim payment details) minus the sum of PLB provider level adjustments does not equal the value in BPR02 (Beginning segment for payment order/Remittance advice). If this occurs you will not receive 835	N/A
8/1/2011	10952	In 835 some of the ICN's are missing which are processed for a specific trading partner.	N/A
8/1/2011	11036	The 835 is not displaying the right ARC associated with the edit that caused a full failure of lines or claims. If a claim has a multiple lines with various EOB codes associated with the denials, ODJFS is not displaying all the EOB codes associated with that particular line denied.	N/A
