This document provides an overview of the programs affected by ARRA dollars.

On February 17, 2009, President Obama signed the American Recovery and Reinvestment Act (ARRA) to jumpstart the economy, create and save millions of jobs, provide assistance to workers hurt by the economic downturn, and protect vital services for Americans. The ARRA provides significant help for Ohio and Ohioans: everything from additional benefits for unemployed workers to increased funds for cash and food assistance, and significant dollars for a variety of employment and training programs.

Statewide

ARRA Award Amounts - As of September 30, 2010

ARRA #	Program Area	Award Amount
93.713	Child Care Development Fund	\$68,140,840

Statewide

93.713 Child Care Development Fund - As of September 30, 2010

ARRA funding for the Child Care Development Block Grant will be spent over SFY10 and SFY11. A large portion of the discretionary funds will be used in SFY 10 to continue to provide subsidized child care for eligible families. Funds for Quality Expansion will be used to provide programs that achieve a 2 or 3-star rating in Ohio's Quality Rating and Improvement System (Step Up To Quality) an additional per child rate for children receiving child care subsidies. ARRA targeted funds for infants and toddlers will be used to support the network of infant and toddler specialists, whose primary role is to improve the quality of infant and toddler care in early care and education settings through the delivery of professional development and technical assistance, as well as the development of new parent consumer education materials. The additional discretionary funds resulted in 59,624 children receiving child care assistance.

Total ARRA Discretionary Funds		
	Awarded	Expended
Discretionary Funds	\$59,245,395	\$59,245,395
Targeted - Infant and Toddler*	\$3,262,319	\$1,000,000
Targeted - Quality Expansions	\$5,633,125	\$2,019,732
Total	\$68,140,840	\$62,265,127

*Approximately \$1,000,000 of the \$1,016,360 allocated for SFY 2010 has been invoiced (vendors have 90 days to submit invoices).

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$26,000,000
Potential ARRA Payout (66%):	\$50,470,588
Potential Maximum Purchase Power (100%):	\$76,470,588

93.658 Child Welfare - Title IV-E Foster Care (FC) Maintenance* - As of September 30, 2010 FC Total Enhanced FMAP Disbursed: \$19,626,235

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

93.659 Child Welfare - Title IV-E Adoption Assistance (AA)* - As of September 30, 2010 AA Total Enhanced FMAP Disbursed: \$10,260,102

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds.

Benefit Increase for Food Assistance Recipients - As of September 30, 2010

The Recovery Act increases benefits for Food Assistance recipients during FFY 2009 and FFY 2010. Those receiving food assistance have automatically received this increase since April 1, 2009; they do not need to take any action. In Ohio, these additional funds are added to recipients' Ohio Direction Cards. Studies have shown that for every \$5 spent in Food Assistance benefits, it contributes to \$9.20 in local and state economies. The year-to-date benefit breakdown is as follows:

10.551 Food Assistance - SSI Cash-out

The Food and Nutrition Service (FNS) allocated additional funds to states with Supplemental Security Income (SSI)/Elderly Cash-out projects, related to the Food Assistance Program. Ohio is one of five states with a Cash-out project; it operates in Cuyahoga County. The total combined amount Ohio was awarded for FFY 2009 and FFY 2010 was \$9,314,933. These funds are being used to provide an additional supplement in SSI Cash-out benefits to the elderly food assistance recipients in Cuyahoga County.

Estimated Food Assistance Benefit Supplement:**	\$633,464,999
Number of Avg. Monthly Individuals Receiving FA Benefits:	1,542,116
Avg Monthly Issuance per Individual - Without ARRA:	\$119
Avg Monthly Issuance per Individual - With ARRA:	\$142
Potential Supplemental Economic Impact of ARRA:*	\$1,165,575,597
Potential Net Economic Impact of ARRA:	\$532,110,599

*\$5 Food Assistance Benefit Generates \$9.20 of Economic Activity Potential

**Includes Cuyahoga County SSI Cashout

Statewide

10.568 The Emergency Food Assistance Program - Stimulus Benefits for Food Banks - As of September 30, 2010

During FFY 2009, ARRA provided Ohio's food banks with an additional 2,913,184 pounds of food, resulting from an additional \$3,984,580 in ARRA food funding.

FFY 2009 Food bank	Food Purchase Allocations	Pounds of Food	Expended Amount	Avg Cost Per Pound
Akron-Canton	\$492,270	395,090	\$493,091	1.25
Cleveland	\$876,443	557,030	\$789,528	1.42
Mahoning Valley	\$239,688	193,320	\$239,156	1.24
MidOhio	\$760,262	670,980	\$758,579	1.13
Shared Harvest	\$1,322,664	892,154	\$1,323,941	1.48
Toledo Seagate	\$293,253	204,610	\$287,831	1.41
Ohio Total	\$3,984,580	2,913,184	\$3,892,126	1.34

In addition, a total of \$3,157,502 in administrative funds (\$998,642 in FFY 2009, \$976,841 in FFY 2010, an additional \$10,012 of recovered FY 2009 funds and \$1,172,007 of recovered FY 2010 funds allocated to Ohio) were made available to the food banks; these funds are used for the same purpose and in the same manner as regular TEFAP administrative funding.

93.714 TANF - Temporary Assistance for Needy Families - As of September 30, 2010

Temporary Assistance for Needy Families (TANF): federal block grant to states for cash assistance and other programs to increase self-sufficiency, reduce out-of-wedlock pregnancies, and support two-parent families. HR 1 established the Emergency Fund for state TANF programs. States are eligible for 80% reimbursement for FFY 2009 and 2010 expenditures in one of three TANF categories - cash assistance, short term nonrecurring expenses, or subsidized employment, that exceed expenditures in either of the base years (FFY 2007 or FFY 2008). Ohio has thus far qualified for reimbursement for excess expenditures in the cash assistance category for FFY 2009 and the first two quarters of FFY 2010 as compared to the lowest of the two base years, FFY 2007. Ohio has also qualified for additional funds for excess FFY2009 and FFY 2010, subsidized employment expenditures for subsidized employment programs that county department of job and family services had established through their county Prevention, Retention and Contingency plans.

17.207 Workforce - Employment and Re-Employment Services - As of September 30, 2010

Ohio offers services to job seekers and employers, primarily through its One-Stop Center system. This includes job search assistance, job referral and placement assistance for job seekers, reemployment services to unemployment insurance claimants, and recruitment services to employers with job openings. Since February 17, 2009, Ohio provided staff-assisted employment services to 1,293,925 job seekers, 10,074 of whom were veterans. The number of job seekers who received reemployment services assessments during this time was 10,208; of those, 766 were veterans.

17.260 Workforce Investment Act (WIA) Program and National Emergency Grant (NEG) Services - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Youth ARRA funds are focused on summer youth employment. National Emergency Grants are designed to serve workers impacted by large mass-layoffs and plant closures.

WIA Groups (Unduplicated)	WIA Participants	Services Provided
Adult	8,182	17,443
DW	6,462	14,720
Youth	18,794	26,389
Duplicated Totals*	33,438	58,552
NEG - Totals	1,436	4,638

* WIA Total participant numbers are duplicated counts because they include individuals who could be co-enrolled in multiple programs at the same time.

93.778 Medicaid - As of September 30, 2010

Medicaid is the federally funded, state-administered program that reimburses providers such as doctors, dentists, optometrists, home health care aides and health-care facilities for providing medically necessary health care services to eligible low-income individuals. Medicaid also provides assistance with durable medical equipment such as wheelchairs and oxygen. The Federal Medical Assistance Percentage (FMAP) is the federal share of the state's Medicaid expenditures.

The Recovery Act increases the FMAP by using a formula that takes into account states' unemployment rates. This temporary program - known as eFMAP, for Enhanced Federal Medical Assistance Percentage - will bring approximately \$3.5 billion to Ohio through state fiscal year 2011.

17.225 Unemployment Insurance - As of September 30, 2010

Through ARRA, the U.S. Department of Labor provides funding to Ohio for three grants that assist the state in managing and maintaining unemployment insurance (UI) distribution and modernization. Award amounts are shown on page one of this report.

Ohio \$25 Federal Additional Compensation (FAC) YTD Estimate (Regular UI, EUC and EB) As of September 30, 2010

In May 2009, Ohio implemented the federal additional compensation (FAC) provision, which gave unemployment claimants an additional \$25 in weekly benefits.

ARRA Total \$25 Supplement	Potential Benefit to Local/State Economies*	Potential Net Economic Impact**
\$594,377,754	\$1,248,193,283	\$653,815,529

Per Department Of Labor (DOL)

* \$1 in Unemployment Benefit Generates \$2.10 of Economic Activity Potential

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$249,258
Potential ARRA Payout (66%):	\$483,854
Potential Maximum Purchase Power (100%):	\$733,112

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Total Enhanced FMAP Disbursed: \$177,899

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

Total Enhanced FMAP Disbursed: \$88,582

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$105,484**

**Estimated Benefit Increase for Food Assistance Recipients
As of September 30, 2010**

Estimated Food Assistance Benefit Supplement:	\$7,259,983
Number of Avg Monthly Individuals Receiving FA Benefits:	18,350

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$66,959
Potential ARRA Payout (66%):	\$129,979
Potential Maximum Purchase Power (100%):	\$196,937

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$12,500

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$1,995

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$31,003**

Estimated Benefit Increase for Food Assistance Recipients As of September 30, 2010

Estimated Food Assistance Benefit Supplement:	\$1,414,940
Number of Avg Monthly Individuals Receiving FA Benefits:	3,650
Avg Monthly Issuance per Individual - Without ARRA:	\$113

Potential Supplemental Economic Impact of ARRA:	\$2,603,490
Potential Net Economic Impact of ARRA:	\$1,188,550

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

Total Enhanced FMAP Disbursed: \$31,309

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

Total Enhanced FMAP Disbursed: \$14,466

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$35,453**

**Estimated Benefit Increase for Food Assistance Recipients
As of September 30, 2010**

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Total Enhanced FMAP Disbursed: \$19,243

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$56,983**

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$258,344
Potential ARRA Payout (66%):	\$501,492
Potential Maximum Purchase Power (100%):	\$759,836

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$98,496

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$73,544

The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$37,058**

Estimated Benefit Increase for Food Assistance Recipients As of September 30, 2010

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$312,400
Potential ARRA Payout (66%):	\$606,424
Potential Maximum Purchase Power (100%):	\$918,824

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$249,486

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$54,502

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$62,495
Potential ARRA Payout (66%):	\$121,314
Potential Maximum Purchase Power (100%):	\$183,809

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Total Enhanced FMAP Disbursed: \$12,057

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

Total Enhanced FMAP Disbursed: \$7,372

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$21,091**

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$174,728
Potential ARRA Payout (66%):	\$339,178
Potential Maximum Purchase Power (100%):	\$513,907

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$86,937

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$38,455

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$82,582**

Estimated Benefit Increase for Food Assistance Recipients As of September 30, 2010

Estimated Food Assistance Benefit Supplement:	\$4,359,630
Number of Avg Monthly Individuals Receiving FA Benefits:	11,115
Avg Monthly Issuance per Individual - Without ARRA:	\$114
Avg Monthly Issuance per Individual - With ARRA:	\$136
Potential Supplemental Economic Impact of ARRA:	\$8,021,719
Potential Net Economic Impact of ARRA:	\$3,662,089

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$749,206
Potential ARRA Payout (66%):	\$1,454,341
Potential Maximum Purchase Power (100%):	\$2,203,546

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$592,622

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$202,508

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$202,525**

Estimated Benefit Increase for Food Assistance Recipients As of September 30, 2010

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$9,130

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$4,240

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$41,568**

Estimated Benefit Increase for Food Assistance Recipients As of September 30, 2010

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$28,656**

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$239,466
Potential ARRA Payout (66%):	\$464,846
Potential Maximum Purchase Power (100%):	\$704,312

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Total Enhanced FMAP Disbursed: \$286,913

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

Total Enhanced FMAP Disbursed: \$82,736

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$60,051
Potential ARRA Payout (66%):	\$116,569
Potential Maximum Purchase Power (100%):	\$176,620

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$20,821

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$6,632

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$45,913**

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$168,329
Potential ARRA Payout (66%):	\$326,756
Potential Maximum Purchase Power (100%):	\$495,085

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$23,275

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$13,436

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$47,230**

**Estimated Benefit Increase for Food Assistance Recipients
As of September 30, 2010**

Trumbull

93.563 Child Support Incentives - As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$503,291
Potential ARRA Payout (66%):	\$976,976
Potential Maximum Purchase Power (100%):	\$1,480,267

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$245,532

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$108,411

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$187,491**

Estimated Benefit Increase for Food Assistance Recipients As of September 30, 2010

Under a provision of the Recovery Act, the federal government will temporarily allow state child support programs to use their federal incentive dollars as a match to draw down additional federal reimbursement funds. During the two years that this ARRA provision is in effect, it is expected that Ohio will earn approximately \$55 million in federal child support incentive money. As a result of this provision, when incentive funds are re-invested in the child support program, the federal stimulus share will be used to fund 66% of the total associated expenditure (\$106 million), thereby increasing the CSEA purchase power from \$55 million to \$161 million.

Child Support Incentives Earned and Projected Impact

Portion of Incentives Earned FFY 2008 (34%):	\$119,658
Potential ARRA Payout (66%):	\$232,276
Potential Maximum Purchase Power (100%):	\$351,934

93.658 Child Welfare - Title IV-E Foster Care Maintenance* - As of September 30, 2010

Foster or substitute care for children is one of the major program components of Ohio's child welfare system and is provided through public and private agencies. The program's main purpose is to reunify children with their families and/or find other permanent living arrangements when children can not safely return home.

Total Enhanced FMAP Disbursed: \$13,979

93.659 Child Welfare - Title IV-E Adoption Assistance* - As of September 30, 2010

The Title IV-E Subsidy Program provides federal financial support for adopted children who are described as having special needs. In addition to a monthly monetary payment, children who are Title IV-E eligible are entitled to other state assistance and services under the federal Title XX program and Medicaid coverage.

Total Enhanced FMAP Disbursed: \$9,233

*Title IV-E Enhanced Federal Medical Assistance Percentage (EFMAP) funding is designed to offset a portion of county matching funds that are used in conjunction with state and federal funds to pay for Adoption Assistance and Foster Care Maintenance. The federal reimbursement rate increases by 6.2% above Ohio's base FMAP rate for the time period beginning October 1, 2008 through December 31, 2010. County funds may then be used to further promote reunification, prevent removal and supplement services. There is an indirect benefit to the program recipients because it offsets the amount of money counties use to assist qualified adoptive families and reimburse service providers. The money that is offset can be used to provide additional services to children in need.

10.561 Food Assistance Administration - As of September 30, 2010

ARRA allows the USDA Food and Nutrition Service to allocate Food Assistance funds to states for Food Assistance Administration. Seventy-five percent of this allocation is based on participation in the program. Twenty-five percent is based on the increase in participation. For SFYs 2009 and 2010, Ohio county departments of job and family services received a total of \$9,245,239 in ARRA Food Assistance Administration funds. This county's allocation for SFYs 2009 and 2010 was: **\$63,122**

**Estimated Benefit Increase for Food Assistance Recipients
As of September 30, 2010**

Estimated Food Assistance Benefit Supplement:	\$2,782,922
Number of Avg Monthly Individuals Receiving FA Benefits:	7,095
Avg Monthly Issuance per Individual - Without ARRA:	\$114
Avg Monthly Issuance per Individual - With ARRA:	\$136
Potential Supplemental Economic Impact of ARRA:	\$5,120,576
Potential Net Economic Impact of ARRA:	\$2,337,654

Workforce Investment Act Program (WIA) - As of September 30, 2010

Federal WIA funds support employment and training activities for adults, youth and dislocated workers. Activities include worker training, occupational and vocational testing, and employment readiness activities. Supportive services help WIA customers with their unique needs and challenges to achieve success. Common supportive services are child care, work uniforms and transportation (gas cards, public transportation passes and auto repairs). Current innovative supportive services provide limited assistance with mortgage payments, health care benefits (COBRA), as well as needs-based payments.

17.258 WIA Adult

The WIA Adult Program supports employment and training activities for adults, including worker occupational and vocational testing, counseling services, and employment readiness activities.

17.260 WIA Dislocated Worker

The WIA Dislocated Worker Program supports employment and training activities for workers who have been laid off. Services include worker occupational and vocational testing, counseling services, and employment readiness activities.

17.259 WIA Youth

The WIA Youth Program supports employment and training activities for youth.
