CITY, STATE ZIP

As a caretaker who is eligible for child care benefits, you have received swipe cards to record your child's attendance on your provider's point of service (POS) machine. In addition to receiving cards for currently active cases, you might also have received cards for cases that are no longer active. If you have received cards for no longer active cases, those cards should be destroyed. They should not be used.

The numbers shown below are the last four numbers of the cards for a case that is no longer active. Please check your cards and destroy the cards that end with these numbers. Use your remaining cards for swiping your child's attendance at your child care provider.

Destroy the card that ends with:

Card 1

Destroy the card that ends with:

Card 2

If you cannot locate your swipe cards or have not received cards, please call the Ohio ECC Caretaker Helpline at 1-888-796-4322 and speak to a customer service representative.

Sincerely,

ACS State and Local Solutions
