Subject: Deadline for Invoicing of Child Care Services Prior to January 1, 2012 (G2)

Dear Provider,

Now that we are through our first quarter of Ohio ECC being operational statewide, invoicing through your local County Department of Job and Family Services (CDJFS) for services delivered prior to January 1, 2012 must end. The deadline for providers to be able to submit these invoices (that are now over 90 days old), is Friday, April 27, 2012.

Providers must submit all invoices for services prior to January 1, 2012 and/or submit documentation for any invoices returned from the CDJFS no later than April 27, 2012. If mailed, invoices must be postmarked by April 27, 2012. It is strongly encouraged that providers ensure they have invoiced or corrected any returned invoices as soon as possible, as long as the county's internal procedures allow for the acceptance of late invoices. This timeline will allow the CDJFS approximately 3 weeks to process invoices by May 18, 2012, the date that ODJFS has established for final entry of all outstanding invoices.

Invoices received or postmarked after April 27, 2012, which include billing for services prior to January 1, 2012, will not be processed.

Please do not hesitate to contact us if you have any other questions.
