

**Subject: CCIDS Provider E-blast November 15, 2011**

ODJFS is preparing for the statewide implementation of the Ohio Electronic Child Care (Ohio ECC) system. Media Riders, inc (MRi) is contacting child care providers, using the phone number of record, to schedule point of service (POS) device installations. MRi will use the provider's ID to identify the provider when calling. Providers can log into the CCIDS Provider Portal to view their provider ID and phone number of record. The provider ID is displayed on the Home Page of the CCIDS Provider Portal. The provider's phone number is located on the Provider Agreement, Rate Information and Bank Information forms displayed on the portal. You can open one of the forms, view the phone number, and then select NO CHANGES at the bottom of the form. If the phone number is incorrect please do the following:

- ODJFS licensed providers should log into COLTS-SOLAR to update their phone number.
- County certified providers, ODE licensed providers and out of state providers should contact the county department of job and family services to update their phone number.
- ODJFS registered camps should email Carol Ankrom at [Carol.Ankrom@jfs.ohio.gov](mailto:Carol.Ankrom@jfs.ohio.gov)

Ohio ECC reminder postcards have been mailed to all caretakers/parents statewide. A copy of this postcard is attached. Please remind your families to view the Caretaker Online Presentation available at the address listed on the bottom of the postcard <http://www.jfs.ohio.gov/cdc/childcare.stm> This 8 minute video describes how to use their swipe card with the POS device. Swipe cards will be mailed to caretakers/parents in December.

Please do not hesitate to contact us if you have any other questions.
