

Subject: CCIDS Provider E-Blast October 13, 2011

All child care providers serving children in publicly funded child care were mailed information from ACS about the Ohio Electronic Child Care (Ohio ECC) Provider Informational Webinars. Below is a list of those documents mailed along with links to several of the documents.

Provider Webinar Invitation

WebEx Instructions for Attending Ohio ECC Provider Webinars

Providers are encouraged to register and log into one of the web-based presentations to learn about Ohio ECC. This is training specific to providers. A Caretaker Online Presentation video has been developed specifically for caretakers (parents) and is available at <http://www.ifs.ohio.gov/cdc/childcare.stm>.

Several organizations/agencies will be hosting webinars to assist providers who have limited access to the internet. Above we have included a link to the [Statewide Provider Webinar Host Sites](#) which includes the host site contact information. Please register with the specific site where you wish to attend to reserve your space. If you are attending the webinar at a host site location, you do NOT need to register through WebEx.

Additionally, included is the [Provider Informational Webinar Slide Show](#). You may want to print a copy of this document to take notes on during the webinar. Remember that you must view the webinar using a computer over the internet and you must use a phone line to hear the presentation.

Information about Ohio Electronic Child Care is available on the CCIDS link found on the right hand side of the Child Care in Ohio website <http://www.ifs.ohio.gov/cdc/childcare.stm>.
