- c) Since some populations could reflect duplicate numbers served across multiple categories and/or monthly reporting periods, these numbers represent a monthly average of reported totals for the reporting period.
- d) This report was introduced in July 2001 to capture information on categories of services and populations served and estimates of total distribution of expenditures that are not captured by any other measures. Therefore, this report is not designed to correspond to ODJFS Federal Fiscal reporting.
- e) Includes "Domestic Violence Housing Relocation" from Hard Services.
- f) Includes "Diversion" from Hard Services.
- g) Represents the combination of "Training, Employment and Career Advancement" (Soft), "Transportation" (Hard) & "Training, Employment and Work Support" (Hard).
- h) Totals may not add due to rounding.
- i) Does not include non-CDJFS administered TANF carve-outs for soft services. These programs are:
1. Ohio Department of Alcohol & Drug Addiction Services/Substance Abuse Prevention and Treatment
 2. Department of Development/TANF Housing Program
 3. Ohio Department of Rehabilitation & Corrections/Children of Incarcerated Parents Program
 4. Ohio Rehabilitation Services Commission/Vocational Rehabilitation
- j) Numbers may also reflect all members of an Assistance Group, while one member may be the primary or direct recipient of service.
- k) The Prevention, Retention, Contingency (PRC) Program is an Ohio TANF funded program administered by CDJFSs.
The PRC reporting system consists of two reporting mechanisms based on the two primary service categories of "hard" and "soft" services:
- * PRC "hard" services are benefits having cash value that are provided to clients. These services are reported through CRIS-E at the time of service provision. The reporting categories, codes and service definitions for hard services are listed in CRIS-E/PRC Reporting Categories.
 - * PRC "soft" services are services without cash value to the recipient (e.g., job training and education, after-school programs, etc.). Data on these services are collected through the PRC Web Reporting Tool (WRT).

Hard services data come from the CRIS-E reporting system.

Soft services data are from the PRC Web Reporting Tool (WRT).
