

Date: March 30, 2011

Sequence: 2011-18

Topic: One Stop MOU Payments

Currently, many areas are not able to draw funds from their One-Stop Resource Sharing allocation, which covers the ODJFS share of the One-Stop Office. Although ODJFS expected to have updated information for discussion at the Workforce Investment Boards' monthly meeting on Wednesday, we did not receive details regarding a resolution to the issue until Monday.

This is an ACRs+ issue in that ACRs+ cannot detect multiple budget period (lines). Maximus is testing the next release of ACRs+ today and tomorrow and expects to release new software this week. Once it is released and installed, Area's should be able to break out the budgets appropriately to the sub entities.

We have been working closely with Maximus to resolve this issue and will notify you via a CFIS Alert as soon as we have additional information to share.

Please contact your ODJFS Fiscal Supervisor if you have questions. Thank you.
