

Date: June 19, 2012
Sequence: BCFTA Update 2012 - 17
Topic: SFY Allocation Notices

BCFTA has received final statewide budget amounts and is currently processing the county budgets through CFIS Web. Allocations are being calculated by CFIS Web and county agencies will receive their Allocation Notices for all SFY 2013 allocations via the new system. The Notices will be available at the time the county logs into the system on July 2, 2012. These Notices will serve as the counties official notice of award and will be maintained in CFIS Web according to record retention guidelines. In addition, the Notices may also be printed or saved in a directory on the county's local area network.

We experienced very little change in the statewide budget amount for SFY 2013; therefore, no preliminary notices will be issued outside of and prior to CFIS Web Go Live on July 2, 2012. Changes in county allocation amounts are the result of a change in the statistical information used in the allocation methodology.

Please contact your ODJFS Fiscal Supervisor if you have any questions.
