RE: *Worker Adjustment and Retraining Notification Act of 1988*

To Whom It May Concern:

This notice is being given to you pursuant to the Worker Adjustment and Retraining Notification Act of 1988, which requires employers to give official notice to certain government units or officials of a pending mass layoff.

Please be advised that Alliance Casting Co., LLC has made the business decision to temporarily idle its plant located at 1001 East Broadway Street, Alliance, Ohio 44601, due to the major downturn in rail car manufacturing and the global economy and the resultant lower demand for the plant's products. As a result, it is anticipated that this facility will undergo a mass layoff in the near future. While no exact date has been established for this mass layoff, it is anticipated to take place between June 5, 2009 and June 18, 2009. It is anticipated that approximately 394 employees will be affected by the mass layoff at our facility, and that the layoff will last in excess of six (6) months; however the exact duration is not known at this point.

Certain affected employees are represented by the United Steelworkers of America AFL-CIO-CLC, Local 2211 and certain affected employees are represented by the

International Association of Machinists and Aerospace Workers, Pattern Makers' Lodge DS30. For those subject to a collective bargaining agreement, affected employees will be determined by collectively bargained guidelines as to job loss including seniority, layoffs and bumping rights. Company employees not covered under a collective bargaining agreement will be laid off as well. Please find attached a list of the job titles of positions that will be affected and the number of affected employees in each job category. In addition, please find below the contact information for the name and address of the chief elected officer of each of the above-listed unions:

Mr. T. Dean Wright, Jr.
