### Resources:

In Columbiana County, we have utilized the OCTF grant to provide parents with Respite services, in order to prevent child abuse and neglect from occurring in at-risk families. Many of the families are involved in FCFC Service Coordination such as WrapAround, Family Support Team, Case Reviews, or in the Help Me Grow Program. Other referrals come from FCFC community partners who also target at-risk families for Respite on an as-needed basis. Emphasis is placed on expanding the parent's resources and parenting skills, so that the need for Respite decreases over time.
