

Establish a network of pilot sites to inform the work and direction of the Strengthening Families Ohio State Leadership team.

So that

A process evaluation documenting and analyzing the early development and actual implementation of the Strengthening Families Protective Factors will be developed.

So that

The Strengthening Families Ohio State Leadership team will be informed in identifying a holistic approach to structural implementation.

So that

Gaps and opportunities for the implementation of the Strengthening Families Protective Factors will be identified.

So that

Strengthening Families Protective Factor trainings are created and professional development opportunities will occur.

So that

Early childhood, child welfare and community leaders will effectively provide services and supports that the children and families need while intentionally building protective factors in the families they serve.

So that

There is an increased level of collaboration between families and early childhood, child welfare and community leaders.

So that

There is increased capacity of communities to build and strengthen the Strengthening Families Protective Factors in individuals, families and communities.

There is attainment and strengthening of protective factors among all families and communities.
