

Appendix D: “Infrastructure” as It Applies to Feed Ohio: Summer Food Service Program Support Grants

Definition of Infrastructure:

Infrastructure is defined as necessary supplies, one-time expenses, and serving necessities that are required to support food service in the USDA Summer Food Service Program (SFSP). These items will *directly* be used to run the SFSP site. Infrastructure items that are deemed unacceptable by GOFBCI will not be reimbursed. If there are questions regarding the acceptability of an infrastructure item, please ask a question during the RFGA Q & A session or ask the RFGA project manager if awarded the grant.

Examples of Acceptable Infrastructure Costs

- Refrigeration (refrigerators, freezers, and coolers)
- Cooking appliances (stoves, steamers, tray holders)
- Storage supplies (boxes and other containers)
- Cleaning supplies
- Disposable plates, napkins, flatware, cups
- Serving utensils
- Tables and chairs
- Rent for space (in-kind space preferred)
- Utility costs for space

Examples of Unacceptable Infrastructure Costs

- Perishable food items
- Nonperishable food items
- Computers and other hardware
- Computer software
- Cars, trucks, buses
- Extravagant site spaces
