

Agency-Readiness Assessment

Now that you have had the opportunity to familiarize yourself with the definition, principles and laws governing FSE; you are invited to participate in the *Family Search and Engagement: Agency Readiness Assessment*.

Assessment Overview & Link

Thank-you for taking the time to participate in the *Family Search and Engagement: Agency Readiness Assessment*. The Family Search and Engagement Toolkit, which encompasses the *Agency Readiness Assessment*, was developed after the Child and Family Services Plan (CFSP) identified the need to improve Family Search and Engagement practices statewide. The goal of the Agency Readiness Assessment is two-fold: from a micro-perspective, it is designed to help you understand where your agency falls on the FSE continuum; from a macro-perspective, aggregate data from county respondents will be utilized to assess and improve Family Search and Engagement practices statewide. Following completion of the *Agency Readiness Assessment*, feedback provided by your agency will be analyzed and compiled into a report that will provide an overview of the results and some suggestive next steps.

The estimated timeframe for completion of the Readiness Assessment is 10-15 minutes. Please select the assessment that best corresponds with your current position within your agency. We greatly value your feedback and thank-you once again for taking the time to participate in the *Family Search and Engagement: Agency Readiness Assessment*.
