## CCMEP Youth Participant After Exit Performance Timeline

**How to use:** This chart shows an example of the timing of the relationship between case management follow up and when a participant is evaluated for performance. The schedule for case management follow up and documenting information in ARIES is in real time after the participant exits CCMEP (see “Case Management Follow Up” timeline below). The evaluation of CCMEP performance measures is delayed two quarters due to utilizing wage record information and affects when the participant is included in the performance reports (see "Performance Evaluation" and "Performance Reports" timelines below). Note that Measurable Skill Gain is not included in this chart because it is evaluated during participation.
