

### WIOA Adult/Dislocated Participant After Exit Performance Timeline

**How to use:** This chart shows an example of the timing of the relationship between case management follow up and when a participant is evaluated for performance. The schedule for case management follow up and documenting information in OWCMS is in real time after the participant exits WIOA (see "**Case Management Follow Up**" timeline below). The evaluation of WIOA Adult/Dislocated performance measures is delayed two quarters due to utilizing wage record information and affects when the participant is included in the performance reports (see "**Performance Evaluation**" and "**Performance Reports**" timelines below). Note that Measurable Skill Gain is not included in this chart because it is evaluated during participation.
