

# Ohio's Opioid Online Curricula Series

## Free Online Courses

A 23-part online curricula series is being developed by expert healthcare professionals to educate a variety of disciplines about drug addiction and its impact.

**Currently, 15 courses are available for free on the E-Based Academy.**

The additional courses will be rolling out over the of the next few months. Each course is approximately one hour in length and serves as a standalone module that can be taken in conjunction with the full series.

Course development and availability is sponsored by OhioMHAS as part of the CURES Grant.
