## ARIES Data Cleanup Continues

The Data Conversion Team will continue to work on multiple programs simultaneously in the coming weeks. The goal is to complete the cleanup effort for CCMEP, WIOA Adult, WIOA Dislocated Worker and Special Grants by the end of May. Adhering to this timeline is vital to the success of the ARIES data migration. All data must be cleaned up and prepared for the first data migration scheduled in July 2021. The data conversion overview presentation and the data conversion guides can be found on the ARIES Resources webpage.

## ARIES Executive Steering Committee Meeting

Project Director Tanya Calbert will be presenting a monthly update to the ARIES Steering Committee next week on Thursday, May 13<sup>th</sup>. The purpose of the monthly discussion is to provide committee members an overview of the project, information about local involvement, change request options, communications plan, and upcoming project deliverables. An added feature will include a live demo on employer services.

## ARIES Video Release

The Advancement through Resources, Information and Employment Services (ARIES) Project Support Team posted the first Monthly Sprint Demo #7 video to the [ARIES Videos website](#) this week. Viewers will learn more about the System, Applications & Products Business Objects (SAP BO) reporting tool that will eventually replace COGNOS once ARIES goes live. Note that the demonstration videos highlight the current functionality within the core system. The core system is a starting point for us to determine whether it meets our needs or additional functionality is required.

Your feedback is an important part of the process. Please log your comments, questions and suggestions in the downloadable spreadsheet available on the site and email it to us at [CMAdmin@jfs.ohio.gov](mailto:CMAdmin@jfs.ohio.gov). If you need help logging in to the website, the ARIES Videos Help Guide contains instructions regarding how to register and navigate within the website.
