## ARIES System Project Update Meeting

Project Director Tanya Calbert will lead the monthly Advancement through Resources, Information and Employment Services (ARIES) System Update Meeting at 3:30 p.m. May 27. Stakeholders will be provided high-level updates on the ARIES project including recent accomplishments, a data conversion update, and upcoming events. Donna Stickel will provide a live demonstration on case notes and document upload by. Lastly, the project team is seeking recommendations on demonstration topics.

## ARIES Video Release

The ARIES project team posted the third Monthly Sprint Demo #7 video to the [ARIES Videos website](#) this week. Viewers can learn more about the audit trail functionality. Audit Trail History allows users to view the data changes on certain screens/records in the application. For this example, the user navigates to the Customer Profile and selects the “Education Tab.” Once the selection is made, the user can view the Audit Details card.

Note that the demonstration videos highlight the current functionality within the core system. The core system is a starting point for us to determine whether it meets our needs or additional functionality is required.

Your feedback is an important part of the process. Please add your comments, questions and suggestions in the downloadable [spreadsheet](#) available on the [site](#) and email it to us at [CMAdmin@jfs.ohio.gov](mailto:CMAdmin@jfs.ohio.gov). If you need help logging in to the website, the ARIES Videos Help Guide contains instructions regarding how to [register](#) and navigate the site.

**IDEAS  
NEEDED!**

Is there specific functionality that you’d like to see a demonstration on? Perhaps a specific workforce program, workflow or report? If so, please email your request to the ARIES Admin Team at [CMAdmin@jfs.ohio.gov](mailto:CMAdmin@jfs.ohio.gov) and we’ll help get it scheduled for you!
