ARIES Project Update

Monster Government Solutions (MGS) team has implemented improvements to various parts of the Case Management product suite. The enhancements in this release increase core functionality and system flexibilities to support varied employer and customer services. The enhancements videos support the following modules:

- Audit Trail
- Search Enhancements
- Stock Configurability
- IOP

Implementation Update

Last week the ARIES Project Unit announced that the monthly local stakeholder meetings will be repurposed to include more demonstrations of the new system. This will allow stakeholders to become more familiar and comfortable with the new system before training begins. Demonstrations for the upcoming ARIES System Project Update Meeting on August 26th will include:

- OWCMS vs ARIES- Log in and Landing pages
- OWCMS vs ARIES- Basic Searches and Filtering- Customer and Employers
- OWCMS vs ARIES-Basic Navigation for Intake and Dashboard screens
- Creating a new customer- Required screens walk through
- SAP BO- Canned reports

ARIES Videos Posted

The ARIES Project Team posted the remaining Sprint Demo #9 videos to the [ARIES Video Website](#) this week. The videos released includes TAA Overpayment & Customer Dashboard, Agriculture Clearance & FLC New Clearance Orders, Agricultural Menu & Dashboard, Employer Dashboard, Bulk Uploads, and the Individual Opportunity Plan (IOP).

**IDEAS
NEEDED!**

Is there specific functionality that you'd like to see a demonstration on? Perhaps a specific workforce program, workflow or report? If so, please email your request to the ARIES Admin Team at CMAdmin@jfs.ohio.gov and we'll help get it scheduled for you!
