Recipient: Generally, this report is an unduplicated count of Medicaid eligibles, by Recipient Eligibility County, using the most recent active Aid Category span for the recipient within the current month (i.e. the September 2012 report is based upon the file as of September 30, 2012). However, due to some data issues, reports between August 2011 and May 2012 were all generated in July 2012. This report includes all retroactive and backdated spans processed as of the end of the reporting month. This report will be a point in time report and will be generated on the last day of the month providing counts for the current month only. Due to the 'point-in-time' methodology, this report may not match similar reports which could be based upon alternate methodologies or different dates or report generation.

Recipient: Generally, this report is an unduplicated count of Medicaid eligibles, by Recipient Eligibility County, using the most recent active Aid Category span for the recipient within the current month (i.e. the September 2012 report is based upon the file as of September 30, 2012). However, due to some data issues, reports between August 2011 and May 2012 were all generated in July 2012. This report includes all retroactive and backdated spans processed as of the end of the reporting month. This report will be a point in time report and will be generated on the last day of the month providing counts for the current month only. Due to the 'point-in-time' methodology, this report may not match similar reports which could be based upon alternate methodologies or different dates or report generation.
